Examiner _____ Initials _____

Date _____ Start Time _____ Stop Time _____

	Points:	Possible	Awarded	Comments
<i>Takes or verbalizes BSI</i>	C			
<i>Takes spinal stabilization</i>	C			
Opens the airway	1			
Directs assistant to inserts an airway adjunct	1			
Directs assistant to selects appropriately sized mask	1			
With assistant, creates a proper mask-to-face seal	1			
<i>Maintains mask seal and spinal stabilization</i>	C			
Directs assistant to ventilate the patient while the candidate controls the mask, airway, and spinal stabilization	1			
<i>Assures ventilation of the patient at no less than 800 ml volume (The examiner must witness for at least 30 seconds)</i>	C			
<i>Candidate directs ventilation of the patient prior to connecting supplemental oxygen</i>	C			
Directs assistant to connects reservoir and oxygen	1			
<i>Directs assistant to adjust liter flow to 15 liters/minute or greater</i>	C			
<i>Reopens the airway maintaining spinal stabilization</i>	C			
Creates a proper mask-to-face seal	1			
<i>Maintains mask seal and spinal stabilization</i>	C			
Directs assistants to resume ventilation at proper volume per breath (The examiner must witness for at least 60 seconds)	1			
<i>Did not allow interruption of ventilation for more than 20 seconds</i>	C			
<i>Allows for adequate exhalation</i>	C			
<i>Patient ventilated without spinal compromise</i>	C			
<i>Candidate must complete the station within the 5 minute time limit</i>	C			

Note: Candidate must complete all critical criteria and receive at least 6 points to pass this station.

	Points:	Possible	Awarded	Comments
<i>Takes, or verbalizes, body substance isolation precautions</i>	C			
Directs application of manual stabilization of the injury	1			
<i>Assesses motor, sensory and circulatory function in the injured extremity</i>	C			
Note: The examiner acknowledges "motor, sensory and circulatory function are present and normal"				
Measures the splint	1			
Applies the splint	1			
<i>Immobilizes the joint above the injury site</i>	C			
<i>Immobilizes the joint below the injury site</i>	C			
Secures the entire injured extremity	1			
Immobilizes the hand/foot in the position of function	1			
<i>Reassesses motor, sensory and circulatory function in the injured extremity</i>	C			
Note: The examiner acknowledges "motor, sensory and circulatory function are present and normal"				
<i>Candidate did not grossly move the injured extremity</i>	C			
<i>Candidate must complete station within 10 minute time limit</i>	C			

Note: Candidate must complete all critical criteria and receive at least 4 points to pass this station.
